hello

My name is Martal of Marta Muryn Portrait, Fairfield, CT premier women's photographer. Through a passion for photography and a desire to help women discover their inner and outer beauty, I have cultivated a strong business presence helping women in the area to truly believe in their beauty.

Do you know that you're beautiful? My motto at my studio is... "You don't have to be a model to look like one." I believe that you're beautiful as you are. But I can help you see it too with professional makeup, lighting, and posing. A photo shoot with me is an empowering experience where you get to see the best version of yourself. The version that everyone else already sees in you.

Included in all my portrait sessions is a makeup application by a licensed cosmetologist. It's not to make you look better, but to help you see that you are gorgeous.

It's not about how you look, but rather how you feel about the way you look. Confidence is truly a beautiful thing. Confidence is what we all need. Confidence, self acceptance and personality is what I bring out in the women I photograph. My job is to coach you and find the model within you that I know is there.

Some of us forget what it's like to feel beautiful and strong along the way. We get too busy with our lives, our family, and our job. This experience is for you to feel that again.

Hugs and lots of love.

Marta M.

you decide to be yourself."

HAIR & MAKEUP

Professional makeup service is included with your photo shoot experience! The day of your shoot, your stylist will be prepared to create the perfect look for you and will discuss makeup colors and styles based on the purpose of your photos and final outfit selections. We do not offer hair at this time. Come with your hair ready just like you would go out. Hot tools are available at the studio.

Professional makeup is such an essential part of the photography experience; it can make or break your photo shoot and that's why I only work with the best cosmetologists. Not only do they know how to give you the perfect look you're wanting, but most importantly they know how to do makeup for the particular lighting and retouching techniques I use. Do you have a specific look in mind? Feel free to bring inspiration images of hair/makeup looks you love!

STUDIO

WHAT DO I WEAR?

Your photo shoot is two hours. This gives us enough time to photograph you in up to five different outfits.

You could bring a couple different looks for your business photos, a glamorous dress for an elegant portrait of yourself, something casual and trendy, something sexy for some boudoir portraits, or another dress to wear when your family joins us for portraits at the end of your session.

Don't have any dresses? Here are some ideas: buy it, rent it, borrow it. There is always a way. Plus you will have access to our wardrobe.

But most importantly I want you to know that your session includes an in-home style consultation and planning meeting. About two weeks before your shoot, we'll meet on zoom to discuss your portrait goals and if you would like assistance, I can help you identify pieces in your closet that would be great choices for your photo shoot.

10 FAIL-PROOF WARDROBE TIPS

1. For a slimmer look, form fitting & figure hugging is definitely best.
2. Avoid patterns as they can detract from your face.
3. Think textures. Lace, embroidery, ruffles, tulle, velvet, or sequins.
4. Bring a variety of colors: Light, dark, vibrant.
5. Sleeveless is great on toned arms and 3/4 sleeves are universally flattering.
6. V-necklines are slimming for everyone.
7. Bring your favorite pair of jeans. Think dressy, sexy denim.
8. Express yourself. Something unusual and extraordinary.
9. Experiment with a sexy, feminine boudoir look. Off the shoulder sweater.
10. Accessorize with statement jewelry. Long strands of pearls, bold earrings, or a stacks of bracelets.

DAY OF THE SHOOT

THIS DAY SO MUCH MORE THAN A HEADSHOT. IT'S A TRANSFORMATIONAL EXPERIENCE THAT WILL CHANGE THE WAY YOU SEE YOURSELF.

YOUR ORDER

Many clients make a mini vacation out of their portrait experience and spend the night at the luxury hotel Delamar in Southport. Totally optional but you deserve a ME day!

You'll arrive to the studio at 10:00 am with smooth, dry hair, and a bare face. We'll do a quick look at the outfits you brought to get a game plan for the day. Once you're all settled, the makeup artist will chat with you about the exact look you're wanting. Most of my clients request a natural glamour makeover: makeup look that's an amped up version of their everyday wear.

Once it's time to start the photo shoot, we'll begin with the simplest pose and coach you exactly where to look, how to smile, etc. You'll never wonder, "where should my hands be, does my face look good, or am I doing this right?" I'm super clear on exactly what to do.

If family members will be joining you for your last outfit of the day to capture some portraits of you together, they'll arrive around 1:00pm.

Once we've gone through all the outfits and different sets we'll be shooting with, it's time to download your gorgeous photo and for you to take a relaxing break. There are an array of restaurants just steps from the studio where you can refuel and get up to date with your email inbox.

When you come back after the break I'll be ready to show you your gorgeous photographs. Being able to view them straight out of camera the same day is so amazing. You won't need to wonder for a week if your photos were good or not. You'll be confident in knowing right away how amazing you look.

Isn't it awesome that you'll get to view and order your favorite photos the same day as your shoot? Our clients love that they don't have to wait to see their gorgeous photos!

We'll start by culling through the images together. You'll see all the poses we tried, from serious to silly and it's a fun process of elimination until we have a collection of images you absolutely love.

Once we've narrowed your selections down to just your favorites, we'll figure out what output format you'd like to have: matted loose portraits, an heirloom album, wall art, or just the digitals.

Our most popular product is custom wall art. What room do you want to decorate? A living room, a hallway, a foyer, a bedroom? I'll create a wall art mock-up so you can see the different configuration options that look best in your space. Color or black and white? Three squares side by side or two vertical portraits? Maybe the best look is one big impressive piece. I'll blow up your image and retouch it at that size so that no detail is missed. I can even custom color tone your wall portraits to coordinate with your room's decor.

The best part is that framing is included. It's like hiring an interior decorator without hiring an interior decorator. www.mmporrait.com

Q & A

Q: I'm not a lingerie type of girl. Can I still do boudoir?

A: Absolutely! Lingerie is not the only way to look and feel sexy. You can do a boudoir set wearing a dress, robe, button up, etc. My favorite style is ultra modest, simple boudoir. An oversized men's shirt or off the shoulder sweater is hella sexy.

Q: I'm not sure if I feel comfortable spending money on myself.

A: I totally understand. A lot of women initially feel that spending money on themselves is selfish. And then there's the camp of women who have the confidence and self worth to be their own biggest fan. It's ok to love yourself and splurge on you. This is an experience that you will cherish for your lifetime.

Q: What if I don't like my pictures?

A: I'm confident that you will be thrilled with the finished product. However, if for any reason you are unsatisfied you may opt out of purchasing your photos.

Q: Can I have my family photographed with me?

A: Absolutely! We'll typically schedule any family members to arrive around noon and they'll be photographed with your last outfit of the day. If your husband is coming for some couples portraits we can also do some business headshots of him at the same time. Or maybe you want solo photos of the children or a three generation portrait. Your wish is my command.

Q: After my order is placed, will I be able to purchase more from that shoot in the future?

A: No. We do one viewing and ordering session. Unpurchased images are not archived.

Q: Can I bring someone to the image viewing?

A: Yes. This is an adults only meeting and we encourage anyone that's an artistic or financial decision maker in the order to attend and select photos. Zoom reveal is also available.

Q: What if I want a product you don't offer?

A: This question comes up a lot when clients want duplicate copies of prints for grandparents, etc. You will get the matching digital file of any portrait you purchase. This allows you to create whatever you want with your digital files.

Our most popular product is custom wall art and folio boxes. What room do you want to decorate? A living room, a hallway, a foyer, a bedroom? I'll create a wall art mock up so you can see the different configuration options that look best in your space. Color or black and white? Three squares side by side or two vertical portraits? Maybe the best look is one big impressive piece. I'll blow up your image and retouch it at that size so that no detail is missed. I can even custom color tone your wall portraits to coordinate with your room's decor.
